Background

The Sexual Assault Response Team Advisory Committee (SART AC) is co-chaired by the Kentucky Association of Sexual Assault Programs (KASAP) and the Commissioner of the Kentucky State Police, with members from various agencies.¹ This committee is responsible for creating protocols and policies, providing support and resources, and reporting on outcomes related to sexual assault, abuse, and harassment. Select SART AC resources can be found on KASAP's website including our SART Toolkit.²

1 in 2 Kentucky women are sexually assaulted in their lifetime.

1 in 5 Kentucky men are sexually assaulted in their lifetime.

Rates of sexual assault are **higher in historically oppressed groups** such as people who are LGBTQ, people of color, and people who have disabilities.

One goal of the SART AC is to support the creation of local sexual assault response teams (SARTs). When all local players collaborate, there is a stronger voice and improved outcomes. Local SARTs focus on improving access to resources for victims, increasing rates of victim participation in the criminal legal system, improving forensic evidence collection, increasing arrest rates and convictions, and much more. In addition to law enforcement agencies, healthcare facilities and rape crisis centers, there are several other stakeholders whose services are critical to victims, such as the Kentucky Claims Commission, Kentucky State Police Crime Labs, and the County and Commonwealth Attorneys to name just a few.

The SART AC was tasked with creating a report for the Kentucky General Assembly under Senate Bill 63, the Sexual Assault Forensic Evidence Act (SAFE Act)³. This is the second annual report. As with implementation of any sweeping reform legislation, this report will highlight outcomes and gaps in Kentucky's efforts to eliminate the backlog of unsubmitted and untested sexual assault kits. As in the first report, this report will detail the success of the implementation "by the numbers" of both the untested kits as well as kits that continue to be submitted going forward in the third year after passage. This document reflects data collected in the time period January 1, 2018 through December 31, 2018.

¹ KRS 403.707

² www.kasap.org

³ KRS 403.707(5)(g)

The requirement in the law to report specific numbers annually is an effort to get a regular snapshot of anticipated and hoped for systems change in how sexual assault cases are handled by the criminal legal system, thereby instilling confidence in victims who want to seek justice in the future or perhaps feel that they have had justice denied because their kit was not tested. The numbers in this report document the progress, which is significant, made in year two of implementation. Ultimately the intent of the SAFE Act continues to send the message that the crime of sexual assault will be comprehensively addressed so that perpetrators are held accountable and victims will be treated in a manner that is trauma-informed by all professionals who they may encounter.

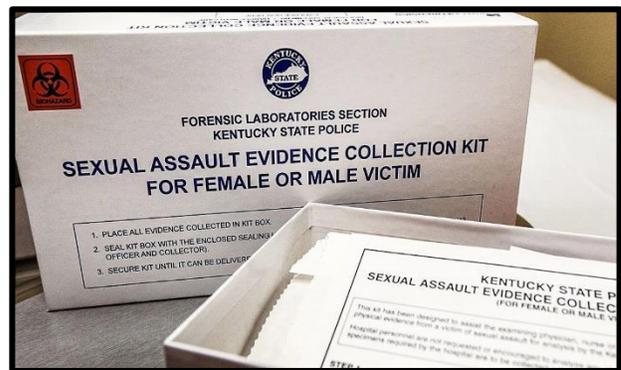

It should be noted that during the time period of this report, what is being referred to as the “#MeToo Movement” came into being as a result of the empowering support felt by long time and formerly silent victims of sexual assault reaching out to each other on social media. The passage of time has not weakened the effect of this movement and it seems that perhaps the culture of acceptance or tolerance of sexual violence is beginning to shift. #MeToo has highlighted that this is the time to continue our progress, support those who have already been harmed, and seek ways to prevent future harm.

While the SAFE Act begins to address Kentucky’s response after someone has been harmed, our interventions must go hand in hand with programming to prevent sexual violence before it happens, which is known as primary prevention. A presentation on primary prevention of sexual violence was presented to the SART AC by a KASAP intern this past year. Additionally, KASAP in collaboration with their partners at the Department of Mental Health and Suicide and Substance Abuse Prevention, held a youth leadership summit attended by 90 high school youth who have already received education on violence, suicide, and substance abuse prevention and are the future leaders in the creation of new cultural norms of non-violence last month. KASAP recognizes the importance of primary prevention efforts for the long-term goal of ending all forms of sexual violence.

Changing the culture will be a long and incremental process of working to increase intervention to protect and treat victims appropriately, hold perpetrators accountable, and prevent potential acts of sexual assault and abuse through education and awareness.

Kentucky State Police Forensic Laboratory System Numbers

1. **Caseload: CY2018- received 1,081 kits:** In calendar year 2018, the Kentucky State Police Forensic Laboratory System (Lab) received a total of 1,081 sexual assault evidence collection kits. Of the 1,081 kits, 887 are kits in active law enforcement investigations to be worked by the KSP Forensic Labs. The other 194 kits are from inactive or cold case investigations and were sought out by the Lab for analysis by a vendor using federal SAKI grant funds.
2. **Capacity:** During the 2018 calendar year, the Lab analyzed a total of 526 sexual assault evidence collection kits, dating back to 2016. Over 200 kits were lingering to see if a new contract and funding would be found for them to be outsourced. In October, the Lab folded those cases into the testing backlog. In turn, the average testing turnaround time increased since many of those kits had 2016 offense dates. At the end of 2018, the turnaround time was 220 days. While the Lab analyzed a total of 526 kits in 2018, it is important to note that during the first six months of 2019, they have already completed testing for 486 cases!
3. **# of kits with a CY2018 offense date received in the Lab between January 1, 2018 and June 1, 2019: 948 kits** (935 cases)
 - 694 (73.2%) were submitted to the Lab in 30 days or less from the recorded offense date
 - 124 (13.1%) were submitted between 31 and 60 days from the recorded offense date
 - 37 (3.9%) were submitted between 61 and 90 days from the recorded offense date
 - 20 (2.1%) were submitted between 91 and 120 days from the reported offense date
 - 31 (3.3%) were submitted in 120 days or greater from the reported offense date with the longest taking 414 days.
 - Average = 36.6 days; Median = 17 days
 - Note: It is not unusual to see multiple kits submitted in a single case. For example, in a case where one child reported sexual contact with a caretaker, kits were collected for all three of the minors in the house at the time. Another example is from a party where several women passed out and kits were collected just in case something had happened.

4. # of kits with a CY2018 offense date and submitted to the Lab in CY2018: 868
- 290 have had all testing completed (33.4%)
 - Average turnaround time is 228.9 days
 - 468 have serology completed and in process or in line for DNA testing (53.9%)
 - 110 have not been started (12.7%)
5. # of kits entered into the kit tracking system in CY2018: 762
- The 2019 legislative session enacted a kit tracking system as law. Even before the new law, and in response to the SAFE Act, staff at the Kentucky State Police Computer Technologies Branch and the Lab created a sexual assault kit tracking portal. The primary goal was to find a tool to help the Lab monitor kits that had been collected at the hospital and reported to law enforcement but never submitted to the Lab for analysis. A secondary goal was to determine how many kits went unreported each year. Since then, the Lab, together with KASAP, provided 74 hospitals with account information. Over half of the hospitals have voluntarily entered kits into the system. The portal is being expanded to allow victims the ability to check the status of their kit through the submission and testing process, whether a DNA profile was obtained, and for those who initially did not wish to report to law enforcement, information on how to make a report.
 - 573 chose to report to law enforcement (75.2%)
 - 165 chose not to report to law enforcement (21.7%)
 - 24 were transferred to “out of state” law enforcement agencies (3.1%)
 - Additional information on the kit tracking system:
 - Both reported and nonreported kits are logged.
 - Kits use barcodes so they can be tracked without victim’s personal information.
 - System will collect: Date and time of collection, whether victim is reporting, which rape crisis center was notified, which police agency contacted (if appropriate), when the agency was contacted, when the agency picked kit up from hospital, when the kit got to the Lab, Lab # associated with kit, stock of kits at hospitals (hospital will see this, not patient), location of kit (hospital, PD, or Lab), if not reporting, first eligible destruction date (1 year), was kit serology tested, and if so, was it positive or negative; when DNA testing completed, whether a DNA profile is put into CODIS, whether there was a hit in CODIS (delayed by 60 days), and resources – advocacy, health, etc.
6. Out of the 573 reported kits, 51 (8.9%) have not been submitted. The Lab is still in process of checking with the individual agencies as they may have transferred kits to another state or to a federal lab.

7. Since given 10 new positions in 2016, 11 out of 32 positions have been vacated. This is a 31% turnover in the Biology department. The Lab is currently (re)filling 5 positions. Retention continues to be a problem. Since it takes nine months for training in Serology and a total of two years to be trained in DNA, new staff cannot immediately start working cases. Also of concern is the fact that training new staff takes analysts off of the bench and away from analyzing cases for 9 months to two years.

Given time, and the funding to attract and retain qualified analysts, the Lab will overcome the backlog. In June of 2018, there were 88 serology and DNA reports issued on sexual assault kit evidence. In June of 2019, that number jumped to 183. This is significant progress. In 2018, for the first time in over 12 years, the Lab worked more DNA cases than they received. The new analysts who were retained have completed all training requirements, completed case apprenticeship, and are now working cases independently without limitations on the numbers of samples. Things have started to significantly speed up.

Other contributing factors that have limited the Lab's ability to reduce turnaround times include the contamination crisis with the vendor lab, additional kits from the backlog added in-house, and a nearly 100% increase in sexual assault kits submitted for analysis in 2018 compared to previous submission levels.

- Analysts have been taken off their regular duties to assess data from nearly 5,000 sexual assault kits outsourced to a vendor laboratory to ensure no other incidents of contamination have incurred, potentially implicating an innocent person. This has been an ongoing process for one year. (It should be completed before August 1, 2019.)
- Over 200 "backlogged" kits were in line for outsourcing should the funding become available. With the expiration of the contract with the vendor, the contamination issue, and lack of grant funds, the Lab has now distributed those cases to be worked in-house along with the CY2018 and CY2019 cases. As these cases were already 18 months old and older, they have inflated the turnaround time for the section.
- From 2010 through 2015 before the thousands of backlogged, never submitted cases were identified, typical submissions of sexual assault kits ranged from 350 to 500 per year. 2018 brought in almost 950 kits which is a dramatic increase in caseload. This increase has added to the jam of cases and delayed turnaround times.

The Lab is hiring four new analysts in addition to reclassifying one of their Laboratory Scientist-in-Training personnel to fill a fifth vacant Forensic Biologist position. These five new analysts will be trained in serology (fluid identification) where samples are selected to move onto DNA testing. The current analysts performing serology testing are completing their DNA training. Upon successful completion of the serology training program by the new analysts, the current analysts in serology will be moved to DNA positions. Unfortunately, it is expected that the turnover rate will remain at approximately 33% over three years so any gains in staffing will be limited.

KSP Lab New Pilot Project on Rapid DNA Testing

Rapid DNA can provide a solution if funding can be found. Rapid DNA is a new, emerging technology for Forensic Laboratories and law enforcement. Samples taken from crime scene evidence are loaded into the Rapid DNA test and within 90 minutes can produce a DNA profile for comparison to a named suspect or be searched against the state database. It works with blood, semen, skin cells, and saliva. Laboratories across the country, including Kentucky, are using the instruments in pilot projects to determine how and when the new technology should be used in both the lab and the field. Some labs have begun using the instrument for property crimes for example where a burglar is cut on a broken window and leaves blood behind. Other labs are using it to analyze touch DNA samples in car thefts.

KSP Lab initiated a project in late 2018/early 2019 to analyze swabs in sexual assault cases from select hospitals via the new Rapid DNA technology. Rapid DNA allows the Lab to receive one, two, or three extra swabs from the sexual assault evidence collection exam. Since Rapid DNA instruments cannot deconvolute a mixture of DNA profiles, the swabs from the sexual assault kits are put through a pre-treatment step to isolate the sperm cells which are then sent through the instrument for analysis. Any profiles that result can be searched against a copy of the state DNA Database or compared directly to a suspect standard. This allows for the potential identification, confirmation, and reporting of an “investigative lead” to law enforcement of a named suspect in a week or less.

Rapid DNA technology is less sensitive than current technologies, cannot handle samples with a mixture of DNA profiles, and cannot be used to enter crime scene samples into CODIS, the National DNA Database. Therefore, not every case would be run on the Rapid instruments. Sensitivity studies will be conducted soon to evaluate the amount of male DNA on sexual assault case samples needed to yield probative DNA profiles. If funding is found for the use of Rapid DNA in casework, samples would be screened for the presence of sufficient quantities of male DNA or of the amount of sperm present in the sample in sexual assault cases. Swabs with ample enough male DNA could proceed with Rapid DNA testing allowing analysts to concentrate on items with less DNA on them. Additionally, in cases where blood, saliva, or skin cells are the items of interest, analysts will be able to send the cases with the more ample samples through the Rapid DNA instruments, freeing up analysts to focus on the weaker/less ample samples and increase overall output.

Law Enforcement Numbers of Reports and Charges

The SAFE Act, under KRS 16.132, requires the Kentucky State Police to collect statewide statistical data on the number of crimes reported and investigated under the following statutes: KRS 510.040 (rape 1st degree), 510.050 (rape 2nd degree), 510.060 (rape 3rd degree), 510.070 (sodomy 1st degree), 510.080 (sodomy 2nd degree), 510.090 (sodomy 3rd degree), 510.110 (sexual abuse 1st degree), 510.120 (sexual abuse 2nd degree), 510.130 (sexual abuse 3rd degree), 510.140 (sexual misconduct), 530.020 (incest), 530.064(1)(a) (unlawful transaction with a minor – illegal sexual activity, 1st degree), and 531.310 (use of a minor in a sexual performance).

2018 Data

KRS Number	# of Citations	Sum of Counts	# of Crimes	Sum of Counts
510.040	306	680	981	1101
510.050	68	292	128	141
510.060	92	154	121	158
510.070	285	798	466	663
510.080	44	280	50	70
510.090	70	144	52	86
510.110	537	1590	1057	1410
510.120	40	61	87	108
510.130	84	108	325	458
510.140	30	31	160	169
530.020	90	195	59	72
530.064(1)(a)	67	209	72	83
531.310	116	395	120	158
Total	1,829	4,937	3,678	4,677

A total of 3,678 cases were opened for the statutes referenced above with 4,677 counts (or instances) of those crimes. There were 1,829 citations issued for 4,937 sexual assaults⁴ that occurred in 2018. Any reported crimes under the statutes listed will be reflected under the 3,678 crimes investigated in 2018. The only caveat would be if someone spoke to police about an alleged sex crime and for some reason the officer did not document the interaction. “Report” here means that a person speaks with a sworn officer to tell them they were sexually assaulted. This would not include calls to 911. The 3,678 crimes investigated include cases where a report was made and documented. These “cases” could include no further action taken after the report, a larger narrative, witness statements, interviews and more.

⁴ “sexual assaults” is used to collectively reference all crimes listed

The numbers in both offense reports and citations will reflect multiple charges within the same case. For example, an officer may open a case on reported sex abuse where during the investigation it is determined that multiple instances of abuse occurred over a period of time. The report will show a single charge of Sex Abuse with a larger number of counts for that charge – “Counts” being the number of times the offender allegedly committed the crime of Sex Abuse. If the individual is arrested, the citation would also show that the offender is being charged with multiple counts of the specific offense.

The number of incident violations received is 4,937 – or a total of 1,829 citations issued with 4,937 individual counts. Most offenses won’t show such a large variance between the number of charges and the number of counts, but with certain offense types, such as fraud offenses, drug offenses, and sex offenses, the number of counts can often be great. An officer will use a citation to criminally charge a suspect for an offense. “Citations” are official charging documents that list the offenses or violations an individual is being charged with and could follow before, during, or after an investigation is opened.

It is possible that some of the 2018 citations issued were for cases reported/opened in 2017 or earlier. Although, as stated above, the intent is to get an annual snapshot of the number of sexual assaults reported to police and dispositions of sexual assault cases, some victims may choose to report the crime at a later date.

*Note on KSP data collection: KRS 17.110 states that,

“All city and county law enforcement agencies shall cause a photograph, a set of fingerprints, and a general description report of all persons arrested on a felony charge to be made and two (2) copies of each item forwarded within thirty (30) days after the arrest to the Department of Kentucky State Police of the Justice and Public Safety Cabinet”, and that “Each city and county law enforcement agency shall advise the Department of Kentucky State Police of the disposition made of all cases wherein a person has been charged with an offense.”

It is important to note that while citations are submitted in the same manner across the state (paper or electronic format), crime reports, in the form of Incident Based Reports (IBR data), are either submitted to the State Police repository through the state provided system (KYOPS), or through a data submission from an agency’s private IBR system.

Currently, there are only a handful of agencies that submit data from their own IBR system, which allows the repository to store statistical information along with KYOPS data for use in state and federal reporting, however; any offense reported to the State Police can be statistically queried for limited data with reference to fields such as violation code, date of incident, and location information, this capability is not as easily accessible for those agencies that submit data outside of the state provided system, which creates a gap.

Roughly 25% of arrest citations are submitted on paper to the Kentucky State Police, which places a delay on collecting the data due to the time it takes to process these documents, as compared to electronic reporting. Additionally, not all paper citations are received by the State Police as they should be, or the information on the paper citations that are received may not be legible or complete.

The court system should receive a complete record of citations, as any individual charged with an offense must be processed through the courts, however, the information listed on citations is limited to the offender's basic personal identifiers and offenses they are being charged with.

Beyond tracking the number of times a violation code has been used on a citation or crime report, or how many criminal cases the court system can identify, there is currently no method to accurately account for reports and the additional details that are a part of these incidents of sexual assaults in the same way as there is for child abuse and domestic violence. We still do not have a fix for this gap. Perhaps an alternative method for more accurate data collection would be in order in the future. One idea would be to create a uniform form for officers to complete when a victim reports a sexual assault.

KSP data for citation numbers listed above covers the entire state based on the citations received, but there remains a gap in statistics for the number of crime reports. Those departments for the 2018 calendar year that submit via their own private IBR systems are the Louisville Metro Police Department (LMPD), Nelson County Sheriff, and Winchester Police Department. For this report, we were able to gather data from LMPD which is below.

KRS Number	# of Reports/incidents
510.040	29
510.050	7
510.060	5
510.070	106
510.080	3
510.090	4
510.110	207
510.120	4
510.130	53
510.140	5
530.020	3
530.064(1)(a)	0
531.310	1
Total	427

2017 Data for comparison purposes

KRS Number	# of Citations	Sum of counts	# of Crimes	# Sum of Counts
510.040	293	485	890	1003
510.050	68	96	122	147
510.060	87	157	127	153

Total	1886	3729	3458	4152

Summary Court Data- Case Outcomes⁵

The Administrative Office of the Courts (AOC) is required by the SAFE Act⁶ to submit data “regarding the prosecution, dismissal, conviction, or acquittal of any person charged with committing, attempting to commit, or complicity to commit a sexual offense as defined by KRS 510.040 (rape 1st degree), 510.050 (rape 2nd degree), 510.060 (rape 3rd degree), 510.070 (sodomy 1st degree), 510.080 (sodomy 2nd degree), 510.090 (sodomy 3rd degree), 510.110 (sexual abuse 1st degree), 510.120 (sexual abuse 2nd degree), 510.130 (sexual abuse 3rd degree), 510.140 (sexual misconduct), 530.020 (incest), 530.064(1)(a) (unlawful transaction with a minor – illegal sexual activity, 1st degree), and 531.310 (use of a minor in a sexual performance).”

This is the same set of statutes as required to be collected on by KSP in the previous section.

2018 Circuit, District, and Juvenile Courts Sexual Offense Dispositions

Court		Acquitted	Amended	Convicted	Dismissed	Diverted	FTA/FTV/AP	Others	Total
Circuit	Charges	107	670	1558	2251	3	242	22	4859

	Cases	32	527	539	597	17	24	540	1758

Kentucky does not require training for prosecutors similar to what is required of law enforcement officers. KASAP offers trainings for attorneys working in this field annually at their conference and the Office of the Attorney General has offered campus sexual assault training for prosecutors. Without additional training, misconceptions and a lack of information may hinder prosecutions. This is one area where the SART AC would recommend required training.

⁵ See Appendix B for comprehensive data

⁶ KRS 27A.305

Law Enforcement Training on Sexual Assault Investigations

Although not required to be reported to the General Assembly, the SAFE Act established guidelines for law enforcement training to be conducted by the Department of Criminal Justice Training (DOCJT).⁷

DOCJT and KASAP partner to offer these trainings, as they have done for the past ten years. In 2018, seventeen (17) courses were offered around the state with a total of **484** law enforcement personnel trained.

Evaluation of these trainings was conducted under contract by Dr. Bradley Campbell, Assistant Professor in the Criminal Justice Department at the University of Louisville. The study was completed in October 2018, and 473 officers participated in the quasi-experimental evaluation of the effects of the Sexual Assault Investigations Course. The evaluation assessed both short- and long-term effects of the training program on officers' self-reported levels of rape myth acceptance, knowledge of Kentucky sexual offense laws, and knowledge of trauma-informed investigative practices. The short-term analysis of the data showed that the training was effective in reducing officers' rape myth acceptance, and improving knowledge of Kentucky sexual offense laws and trauma-informed practices. Additionally, analysis of long-term follow-up data indicated that these effects were sustained over time. As such, the results showed that the training has provided lasting change in perceptions of victims and knowledge among participants who completed the course.

In addition to the evaluation of training effects, Dr. Campbell and DOCJT conducted a training needs assessment. This assessment asked officers to select three priority areas for additional training out of a list of 20 potential topics. The assessment showed that officers had a desire to participate in a training program that focused on conducting victim interviews in a trauma-informed manner. In response to this assessment, DOCJT and the University of Louisville's Criminal Justice and Theatre Arts Departments applied for and were awarded funding from the National Institute of Justice to develop and evaluate trauma-informed interview training. The funding will support eight courses offered in the fall of 2019 and spring of 2020. The training will teach officers about trauma-informed interview techniques and allow them to practice with standardized patient actors portraying sexual assault victims. At this time, the training curriculum has been developed and the first class will be offered in September 2019.

DOCJT is also assisting the Sexual Assault Kit Initiative Task Force with bringing Violent Criminal Apprehension Program (ViCap) training to Kentucky in July 2019. The program, which is operated by the Federal Bureau of Investigation, provides investigators with access to a database of crimes that may be linked through behavioral traits of the offender. This program has proven useful in the investigation of murders and attempted murders, sexual assaults and attempts, missing person and cases of unidentified human remains.

⁷ KRS 15.334(2)(c)

Sexual Assault Kit Initiative

In September 2017, the Kentucky Office of the Attorney General (OAG) was awarded nearly \$3 million in Sexual Assault Kit Initiative (SAKI) funding. Kentucky's FY2017 SAKI funding allowed for the testing of additional SAFE kits not previously identified, the establishment of a cold case unit within the OAG, the addition of a cold case investigator to the Kentucky State Police, and research by Dr. Bradley Campbell with the University of Louisville.

The entire SAKI certified inventory has been tested to date by Sorenson Forensics and the results are being released through an ongoing process as KSP's Central Laboratory (Lab) reviews the data and enters information into CODIS.⁸

There have been **twelve indictments** from Kentucky's testing of the previously untested sexual assault kits thus far, with more prosecutions expected once all data is back from the Lab. Nearly one third of these indictments are being prosecuted by the SAKI Cold Case Unit of the OAG, demonstrating the efficacy of a specialized statewide unit. Several of the indictments involve alleged serial rapists.

In addition to providing investigative and prosecutorial support for local jurisdictions across the state, the SAKI Cold Case Unit regularly provides victim-centered technical assistance to victim advocates, law enforcement, and prosecutors across the Commonwealth.

The SAKI Task Force (Task Force) convenes bi-monthly to review grant goals and objectives, receive updates on the status of each sub-grant, and is in the process of finalizing comprehensive, evidence-based protocols on cold case investigations, which include recommendations for victim-centered engagement and CODIS hit follow up.

The Task Force regularly strategizes methods to build local jurisdictional capacity to improve the criminal legal system response to sexual violence and cold case investigations. To illustrate, in December 2018, after identifying a need from local law enforcement agencies, the Task Force established a partnership with Regional Organized Crime Information Center (ROCIC) to provide intelligence-based information to be disseminated with each CODIS hit. Modeled after a similar practice of the SAKI program in Kansas, these SAKI CODIS "hit packets" are designed to provide location information about the survivor of the sexual assault and a full intel work up on the offender to aid law enforcement in building an offender focused notification and engagement system for their respectful jurisdictions.

Additionally, in the spring of 2018, the Task Force embraced a partnership with the FBI's Violent Criminal Apprehension Program (ViCAP) and agreed to voluntarily submit all qualifying "criteria cases" in their SAKI certified inventory to ViCAP. Notably, very few law enforcement agencies utilized ViCAP in Kentucky at the inception of the 2017 SAKI funding. After the Task Force began

⁸SAKI certified inventory includes 3,173 DANY kits as baseline + 1,424 SAKI kits for a total of 4,597 kits.

to champion ViCAP and share information about this important resource, use of the database in Kentucky increased exponentially. At present, officers from the three (3) largest police departments in Kentucky are now utilizing ViCAP with some regularity and smaller departments are reaching out for assistance to gain access. The Task Force will be conducting ViCAP overview sessions across the state in May/June 2019 to build interest and assist departments with gaining access in advance of hands-on ViCAP training by the FBI in July 2019. Additionally, the OAG was recently established as a ViCAP HUB agency so that they may assist local agencies in data entry, case analysis, and serve as a conduit to connect local law enforcement to additional federal resources such as the Behavioral Analysis Units of the FBI, where appropriate.

The OAG, in conjunction with Dr. Campbell from UofL, have developed a reporting link to be disseminated with each CODIS hit via email that will allow for more accurate reporting of data from local law enforcement agencies. The data will auto populate to an account with access by Dr. Campbell, the SAKI Program Coordinator, and KSP. This reporting link will be utilized to track and collect information under the FY2019 SAKI grant as well, if funded.

In addition to SAKI reporting requirements, under FY2017, the OAG contracted with sub-grantee University of Louisville (Dr. Brad Campbell and his research team) to provide a holistic research approach to examine the problem of untested SAFE kits in the Commonwealth. The overall goals of the project are to examine the outcomes of kit testing, provide justice to victims, and to identify data-driven victim-centered responses to sexual assault. Specifically, the study seeks to do the following:

- Collect baseline data on geographic, case, victim, and suspect characteristics in approximately 3,300 cases associated with untested kits;
- Examine correlates of cases with un-submitted and untested SAFE kits to cases with submitted and tested SAFE kits;
- Develop an understanding of pre-arrest decisions in sexual assault cases (e.g., the decision to request SAFE kit testing, to interview suspects, the evaluation of victim credibility);
- Evaluate training efforts for law enforcement and prosecutors and the impact of the SAFE Act and the SART-AC to improve responses to sexual assault;
- Evaluate the impact of SAFE Act on kit submission rates, CODIS hit rates, victim participation, law enforcement perceptions of victims, and clearance rates; and
- Provide evidence-based policy recommendations.

The project is one of the first to examine this problem at the state level and will provide valuable insights for other states facing this issue. The study will employ multiple research methodologies including surveys of prosecutors and police officers, longitudinal analyses of submission rates, regional analyses of submission rates, reviews of cases associated with untested SAFE kits, as well as interviews and focus groups with practitioners. The study will deliver publicly available quarterly reports, presentations to stakeholders, data files on all project data, and a website to disseminate study findings. The study will also assist the SAKI Task Force and the SART AC in addressing gaps and in providing required data pursuant to the SAFE Act. Preliminary research from Dr. Campbell indicates that the SAFE Act has increased timely submission rates of SAFE kits to the crime lab across the Commonwealth.

2019 Legislative Updates

After two years of implementation, a few of the identified gaps from the original 2016 SAFE Act were able to be addressed in the 2019 session. Progress will continue to be monitored, with new ideas being brought from the field to the legislature as future areas for improvement are identified.

1. Kit tracking portal accessible by survivors, KRS 16.132.
 - a. KSP and KASAP were already helping hospitals around the state create a tracking portal but now it is required by law that KSP implement a sexual assault forensic evidence kit tracking portal. What is most important about the portal is that it will be **accessible for survivors** so that they can identify where their kit is located and any progress and outcomes of testing.
 - b. “by July 1, 2020, create and implement a tracking process for sexual assault forensic evidence kits. The department shall by December 1, 2020, promulgate administrative regulations governing the tracking process. The tracking process shall include, and the administrative regulations promulgated pursuant to this subsection shall require, a public portal allowing victims to access the system, and shall provide for the information to be submitted to the Department of Kentucky State Police.”
2. Modification of retention requirements for evidence which is subject to DNA testing, KRS 524.140.
 - a. There was confusion expressed by professionals in the criminal legal system about evidence storage, retention, and destruction. This law is not restricted to evidence in sexual assault cases but rather, covers any evidence that may be subject to DNA testing in a criminal case. The changes in KRS 524.140 tried to clarify these issues.
 - b. “Biological evidence” means: 1. The contents of a sexual assault evidence collection kit; or 2. Any item, or representative sample taken from an item, that contains blood, saliva, sperm, hair, tissue, bones, teeth, or other bodily fluids that was collected as part of a criminal investigation and that reasonably may be used to incriminate or exculpate any person from an offense or delinquent act;”
 - c. “No item of biological evidence gathered by law enforcement, prosecutorial, or defense authorities that may be subject to deoxyribonucleic acid (DNA) evidence testing and analysis in order to assist federal, state, and local criminal justice and law enforcement agencies within and outside the Commonwealth in the identification, detection, or exclusion of individuals who are subjects of investigation or prosecution, or to confirm the guilt or innocence of a criminal defendant, shall be disposed of prior to a criminal trial unless...”

3. Sexual violence training for EMTs and 1st responders, KRS 311A.120.
 - a. Many citizens, even professionals, who may interact with survivors, do not have the skills and knowledge necessary to respond. EMTs also recognized the need and had a desire for training. The following was put into law: “at least one (1) hour covering awareness of sexual violence, including reporting options, care options, pre-hospital treatment considerations, knowledge of regional rape crisis centers, and how to access the SANE-ready list, at least one (1) time every two (2) year renewal cycle.”

4. Modification of sexual assault investigation training requirement for law enforcement, KRS 15.334.
 - a. The original law enforcement training requirement under the SAFE Act was broader than intended. The new language will ensure that smaller agencies, who may not investigate sexual assault cases, will not be forced to attend the training (but may attend if desired) while also ensuring that officers who are responsible for investigating sexual assault will receive the training.
 - b. Changes: agencies shall maintain officers on staff who have completed the 40 hour sexual assault investigation training course; 11-20 officers must have 1; 21-50 officers must have 2 trained; 51 or more, must have 4 trained
 - c. “An agency shall not make an officer directly responsible for the investigation or processing of sexual assault offenses unless that officer has completed the 40 hour sexual assault investigation training course”

Sexual Assault Nurse Examiners and SANE-Ready Hospitals

The SAFE Act included a provision to designate hospitals as “SANE-ready” if they were able to provide 24/7 coverage of sexual assault nurse examiners (SANEs) to treat “persons seeking treatment as victims of sexual offenses.”⁹ We know that there are a limited number of SANEs available throughout Kentucky. In 2018, the Kentucky Association of Sexual Assault Programs offered four SANE courses, all paired with the Sexual Assault Investigations course for law enforcement. Additionally, St. Elizabeth Hospital and Lexington SANE Program offered three courses. After nurses complete the classroom portion of the training, they must meet specific clinical objectives within one year. The summer edition of the Kentucky Board of Nursing’s publication, KBN CONNECTION, reported **283 active SANEs** practicing in the Commonwealth. This is the highest number of SANEs in Kentucky to date. As of July 2019, 8 hospitals, compared to 7 last year, have received the SANE-ready designation.¹⁰

Fleming County Hospital	55 Foundation Drive	Flemingsburg	Fleming	606-849-2351
Meadowview Regional Medical Center	989 Medical Park Drive	Maysville	Mason	606-759-5616
Owensboro Health Regional Hospital	1201 Pleasant Valley Road	Owensboro	Daviess	270-417-2000
Saint Joseph London	1001 Saint Joseph Lane	London	Laurel	606-330-6000
St. Elizabeth Edgewood	1 Medical Village Drive	Edgewood	Kenton	859-301-2000
St. Elizabeth Florence	4900 Houston Road	Florence	Boone	859-212-5220
St. Elizabeth Ft. Thomas	85 North Grand Avenue	Fort Thomas	Campbell	859-572-3100
St. Elizabeth Grant	238 Barnes Road	Williamstown	Grant	859-824-4240

⁹ KRS 216B.401

¹⁰ https://chfs.ky.gov/agencies/os/oig/dhc/Documents/Directories/SANE_Ready_Hospital_Directory.pdf

In FY2018, Kentucky rape crisis centers (RCCs) statewide reported providing medical advocacy services on 1937 occasions¹¹ when RCC advocates were requested to be available to a victim during a sexual assault forensic medical exam (SAFE exam). Due to a shortage of SANEs, not all victims were provided health care services by a SANE. Due to specialized training, when a SANE is present, a victim is more likely to receive information regarding consent to the exam, privacy, STIs, and pregnancy prevention. Despite being required by law, RCCs report that in hospital facilities that do not employ SANEs, advocates are less likely to be called to accompany a victim during an exam. It is difficult to gauge the information passed on and the care that the victims receives if an advocate is not notified. There is a major knowledge gap in what the law requires in care and response for sexual assault victims seeking care in hospitals. For example, Kentucky law requires all hospitals that offer emergency services to provide a free sexual assault forensic exam kit to all victims; contact a local rape crisis center to provide advocacy; contact law enforcement to collect reported kits when a victim consents; and preserve all kits not reported to law enforcement for one year.¹²

To address these gaps, there is continuous training by RCCs and KASAP with hospitals and encouragement to employ SANEs. Additionally, in June 2018, the Office of the Attorney General awarded KASAP \$30,000 to create a training video for hospitals to ensure that they understand the law and serve all victims appropriately. The video has been completed and will be posted on the websites of KASAP, the Kentucky Hospital Association, and the KY Office of the Attorney General.

Conclusion

The SAFE Act is moving Kentucky forward regarding the treatment, beliefs, and knowledge around sexual assault. After almost three years of implementation, we are reviewing remaining needs and modifications, many mentioned throughout this report. We still have a long road ahead, but even now grants are in process and plans are in place to hopefully create even further progress. We look forward to future legislation in Kentucky that will continue to improve response but also address the prevention of sexual abuse, assault, and harassment.

CY 2018 SEXUAL ASSAULT ANNUAL REPORT

April 10, 2019

By

Cameron Brown (*Data Analysis Specialist*)
Kathy Schiflett (*Research Consultant*)
Tammy Manley (*Data Analysis Specialist*)

Requestor:

KRS 27A.305

On Behalf of:

Organization:

Sexual Assault Response Team Advisory
Committee

Due Date:

May 1, 2019

Statistics Request Overall Description

In accordance with KRS 27A.305, AOC is providing the Sexual Assault Response Team Advisory Committee a statewide count of sexual assault charges within cases disposed statewide during calendar year (CY) 2018. The UOR codes for the requested charges are provided on the attached supplemental list.

CourtNet, which provides a summary of cases statewide, was queried for the specified sexual assault charges disposed January 1, 2018 through December 31, 2018.

Statistical Table (18_RS9019)

Report 18_RS9019 presents the number of specified sexual assault charges disposed during CY 2018 statewide. Tables are grouped by the court division that a charge was disposed in. The tables are sorted by the county in which a case was disposed. Tables are cross tabulated by the UOR code with description the charge disposition. A statewide summary is provided at the end of the report.

Statistical Analysis Considerations:

- These statistics represent a snap shot in time.
- A case may consist of one or multiple charges. The report's count of cases represents a distinct count of case numbers, regardless of the number of charges associated with the case.
- Counts of cases do not necessarily represent counts of unique individuals.
- Charges consist of all original and amended charges within a case.
- Charges include ASCF Codes: 1 - Attempt, 2 - Solicitation, 3 - Conspiracy, 4 - Facilitation, 5 - Complicity, 6 - Enhancement.

CY 2018 SEXUAL ASSAULT ANNUAL REPORT

Data Variables Requested

Database	Data Variable	Description
CourtNet	Court Division	The division of the case for which each charge was disposed <input type="checkbox"/> Circuit Court <input type="checkbox"/> District Court <input type="checkbox"/> Juvenile Court
	CY	The calendar year in which the charge was disposed (CY 2018 only).
	County	The county in which a charge was disposed.
	UOR Code and Description	A code and description which identifies the specific offense charge brought against the defendant.
	Disposition Type	The manner which each charge was disposed. Disposition types include: <input type="checkbox"/> Acquitted <input type="checkbox"/> Amended <input type="checkbox"/> Convicted <input type="checkbox"/> Dismissed <input type="checkbox"/> Diverted <input type="checkbox"/> FTA/FTV/AP <input type="checkbox"/> Others <input type="checkbox"/> Pending.
	Charges	A count of charges disposed.
	Cases	The total number of distinct cases disposed.

RESEARCH AND STATISTICS DISCLAIMER

Information received from KYCourts/CourtNet is subject to change(s), reprogramming, modification(s) of format and availability at the direction of the Administrative Office of the Courts (AOC), and may not at any particular moment reflect the true status of court cases due to ordinary limitation(s), delay(s) or error(s) in the system's operation. The KYCourts/CourtNet database is not a real-time system. All datasets are a snapshot of case data at the time a query is run. Case counts are not counts of individuals as some persons may have multiple cases.

The AOC disclaims any warranties as to the validity of the information obtained from KYCourts/CourtNet. The recipient is solely responsible for verifying information received from KYCourts/CourtNet through the cross-referencing of official court records. The AOC shall not be liable to the recipient, or to any third party using the system or information obtained therefrom, for any damages whatsoever arising out of the use of KYCourts/CourtNet.

CY 2018 SEXUAL ASSAULT ANNUAL REPORT

Disclaimer Associated with KCOJ/AOC Database(s) and Element(s)

RESEARCH AND STATISTICS UOR CODE DISCLAIMER

The Kentucky State Police (KSP) assigns the Kentucky Uniform Crime Reporting Codes (UOR Codes) to criminal offenses in the Commonwealth of Kentucky. The KSP official list of UOR Codes by KRS number and descriptor can be obtained at the KSP's website at www.kentuckystatepolice.org.

The AOC assigns and maintains codes that are used within the Court of Justice Case Management System for statistical and reporting purposes. These codes are used to identify local and city ordinances, as well as codes for general administrative purposes. The AOC official list of UOR Codes with KRS number and descriptor can be obtained at the Court of Justice Website at courts.ky.gov/aoc/statisticalreports. The AOC UOR Code Listing is for informational purposes only and the information is subject to change, reprogramming, modifications of format, and availability at the direction of the Administrative Office of the Courts (AOC).

A query for data based on specified charges will include each UOR code specified and possible supplemental codes. Supplemental codes (or "ASCF" codes) to any UOR code include: 1) attempt, 2) solicitation, 3) conspiracy, 4) facilitation, 5) complicity, and 6) enhancement. In total, UOR codes contain seven digits. The first six digits are specific to that charge. The seventh digit indicates if there is a supplemental code. A "0" as the seventh digit means that is the primary UOR code and it does not have a supplemental code. If there are supplemental codes, the "0" will change to a 1, 2, 3, 4, 5, or 6 (the numbering corresponds to the list above). An enhancement does not exist on all UOR codes. When a supplemental code does not appear within a dataset, charge(s) did not occur during this period. The presence of "*obs" within the description of a UOR code indicates an obsolete UOR code. However, the code is still present within the KYCourts/CourtNet database and may still be utilized. Not every UOR code included in the query will have charges associated with it in each calendar year examined. Some cases may contain multiple charges; therefore, charge counts may exceed case counts. The number of cases cannot be inferred as the number of individuals as multiple cases may have the same defendant.

The AOC disclaims and makes no warranty, express or implied, nor assumes any legal liability or responsibility, for the validity, accuracy, correctness, or completeness of any information that is available and/or obtained through this listing. The recipient is solely responsible for verifying the accuracy of the information received from the official owner of the UOR Codes, the KSP. Furthermore, the AOC shall not be liable to the recipient, the recipient's heirs and assigns, next of kin or to any third party, for any and all claims, demands, losses or damages arising from the usage of this list and/or information contained therein.
