#### **Purpose**

The annual Sexual Assault Forensic Evidence (SAFE) Act report fulfills the requirement set forth by KRS 402.707(5), which requires the Kentucky statewide Sexual Assault Response Team Advisory Committee (SART AC) to:

"Report to General Assembly results of analysis of previously untested sexual assault examination kits, and

Report to General Assembly and Secretary of Justice and Public Safety Cabinet the number of

- sexual assaults reported,
- o number of kits submitted and tested, and
- o number of charges and convictions obtained in sexual assault cases."

The required data is collected and submitted to the SART AC on an annual basis by the Kentucky State Police (KSP) and the Kentucky Administrative Office of the Courts (AOC). Per KRS 16.132 (1)(2), it is the duty of the "KSP to collect statistical data regarding persons charged, and to provide data results to SART Advisory Committee by May 1st of each calendar year, beginning May 1, 2018." Per KRS 27A.305 (1)(2), the AOC is responsible for the "collection of statistical data regarding prosecution, dismissal, conviction, or acquittal of sexual offenses, and to provide results of data to the SART Advisory Committee as defined in KRS 403.707."

While the SART AC takes seriously its duty to report this data, it also welcomes this opportunity to provide a broader discussion of sexual violence in Kentucky. This is the eighth annual SAFE Act report to be published. Currently, there is no other statewide report published on cases or instances of sexual assault or sexual assault response. For this reason, the Committee feels it is important to provide a more comprehensive view of sexual assault response in Kentucky, as well as background information on the SART AC and continuing statewide trends.

## Sexual Assault Response in Kentucky

Sexual violence continues to be a significant public health concern in Kentucky. Organizations across the state are working to address those impacted by sexual violence through crisis intervention, advocacy, prevention, and other support services. Victims and survivors of sexual assault may seek emergency medical care, such as a Sexual Assault Forensic Evidence (SAFE)

exam, or participate with the criminal-legal system by filing a report with law enforcement. When a victim or survivor engages with one of the many systems within our communities that are meant to serve, support, and promote healing, it is crucial for the stakeholders of those systems to provide a survivor-centered, collaborative response to instances of sexual violence.

Sexual Assault Response Teams (SART) play a vital role in coordinating a community's response to sexual assault. They bring together professionals from various disciplines, including law enforcement, healthcare, advocacy, legal services, and victim services, to create a unified, survivor-centered approach to managing sexual assault cases. Communities with strong SARTs can help to ensure that survivors receive appropriate care and supportive services, which can be empowering and promote healing.

#### **Sexual Assault Response Team Advisory Committee**

In addition to community SARTs, Kentucky also has a statewide Advisory Committee with members from various statewide agencies working to improve sexual assault response. The Sexual Assault Response Team Advisory Committee (SART AC), created by statute, KRS 403.707, is responsible for producing protocols and policies, providing support and resources, and reporting on outcomes as they relate to professionals providing services to survivors of sexual violence. <sup>1</sup> The SART AC is co-chaired by the Executive Director of the Kentucky Association of Sexual Assault Programs (KASAP) and the Kentucky State Police (KSP) Commissioner or their designee. <sup>2</sup> The following agencies or representatives are required to be participating members of the SART AC:

KY Board of Nursing, KY Nurses Association, KY Hospital Association, KY Association of Children's Advocacy Centers, KY State Police Crime Lab, Community Based Services, Office of Victims Advocacy in the Office of the Attorney General, sexual assault nurse examiner, representative of a sexual assault response team, physician, and a Commonwealth's attorney or an assistance Commonwealth's attorney. <sup>3</sup>

It is one of the duties of the SART AC to collect data related to sexual assault cases on an annual basis. This data collection assists in highlighting trends and exposing gaps in services, tracking the effectiveness of response protocols, identifying areas of need for training or resources, and advocating for policy and legislative changes. Data collection required for the SAFE Act report has continued to provide evidence of the need for increased funding for forensic testing, victim-centered training for law enforcement, and established policies that

<sup>&</sup>lt;sup>1</sup> KRS 403.707

<sup>&</sup>lt;sup>2</sup> KRS 403.707

<sup>3</sup> KRS 403,707

work to promote system transparency, such as the creation and utilization of the KSP SAFE kit tracking portal. Additionally, Kentucky continues to see an increase in victims and survivors of sexual assault seeking emergency medical services and advocacy, as well as an increase in the number of victims and survivors choosing to report to law enforcement. This means that the Kentucky State Police Forensic Laboratory continues to see an annual increase in the number of SAFE kits submitted for forensic testing as well.

Despite the persistent challenges, Kentucky has made notable strides in both addressing the backlog of forensic evidence and providing comprehensive support to survivors. Advocacy organizations, combined with legal reforms and prevention programs, represent a multifaceted approach to combating sexual violence and improving our response to it. However, the high rates of underreporting and the complex intersections of sexual violence and other forms of interpersonal violence, as well as systems of oppression, demonstrates that there is still much work to be done. While the SART AC understands and respects that not all victims and survivors will choose emergency medical SAFE services or to report to law enforcement, as long as one survivor does choose to engage with these systems, we must maintain our goal of working towards improvement.

## **2024 Kentucky State Police Forensic Laboratory System Numbers**

Data, narrative, and graphics provided by KSP

In Calendar Year 2024, the Kentucky State Police Forensic Laboratory System received a total of 708 sexual assault forensic evidence (SAFE) kits, a decrease of 6% from the previous year, and completed analysis on 845 SAFE kits, an increase of 10% from the previous year.

The average turnaround in 2024 was 437 days from date of submission to the date the final report was released. As a result of efficiency efforts during the year, the average turnaround time for cases completed in December 2024 was approximately 13 months.

Of the 708 SAFE kits received in 2024, 25 had offense dates ranging from 2010 through 2022.

1.

# 2. Number of SAFE kits entered into the kit tracking system by medical centers in **2024:** 738

- a. 606 (82.1 %) were reported to law enforcement cases, down from 82.4% in 2023
- b. 132 (17.9 %) were non-reported to law enforcement, 4 up from 17.6% in 2023
- c. Kit Tracking Accounts have been set up for 82 hospitals. Of the 82 hospitals, 47 entered at least one kit into the system in 2024. This is an increase from 43 in 2023.

<sup>&</sup>lt;sup>4</sup> Except where mandatory abuse and neglect reporting laws apply, victims have the right to choose whether law enforcement is notified when a SAFE kit is collected (KRS 216B.400(10)(a)).

#### **Current Challenges**

The Kentucky State Police is committed to helping victims and survivors on their path toward security, healing, and justice.

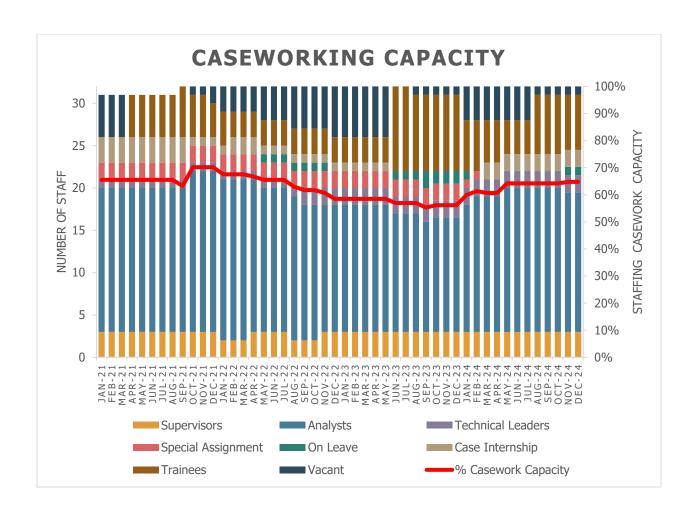

Kentucky State Police's six forensic laboratories analyze evidence in criminal cases for more than 400 law enforcement agencies across the commonwealth. In 2024, the state police laboratories received more than 40,600 submissions of evidence, a 10% increase from the previous year.

The SAFE Act is an important and necessary piece of legislation that helps victims find justice and puts perpetrators behind bars. Victims and survivors deserve evidence to be processed in a timely and professional manner, and the KSP Lab takes this work seriously.

Prior to the passage of the SAFE act in 2016, the lab received an average of more than 400 sexual assault kits a year. Now, KSP receives an average of almost 900 new kits per year.

As a result of this dramatic increase, the lead time for processing new SAFE kits has also increased, but KSP has stayed focused on reducing the turnaround time to process. In 2021, the processing time was 18 months and today it is 13 months. The laboratory has processed more SAFE kits than it received in four of the last five years. In 2024, it achieved its second-highest annual total of processed kits. KSP recognizes that every day counts when seeking justice and helping victims heal.

In 2023, the forensic biology section operated at no more than 58% of its case working capacity due to vacancies and analysts in training. Since the laboratory started tracking case working capacity in 2021, the forensic biology section has never operated at more than 70% capacity. The reduced capacity is directly attributable to high levels of turnover in the laboratory. For example, in April 2021, the laboratory hired five new biologists, filling all positions in the biology section; however, by spring 2023, there were six vacancies again due to departures. All six vacancies were filled in mid-2023, but within one year, four positions were vacant again. Since the passage of 2016 Senate Bill 63, which included funding for 10 new biology positions, these positions have never been fully staffed and working on cases.

## **Law Enforcement Numbers of Reports and Charges**

(Data and chart provided by KSP)

The SAFE Act, under KRS 16.132, requires the Kentucky State Police to collect statewide statistical data on the number of crimes reported and investigated under the following statutes:

KRS 510.040 (rape  $1^{st}$  degree), 510.050 (rape  $2^{nd}$  degree), 510.060 (rape  $3^{rd}$  degree), 510.070 (sodomy  $1^{st}$  degree), 510.080 (sodomy  $2^{nd}$  degree), 510.090 (sodomy  $3^{rd}$  degree), 510.110 (sexual abuse  $1^{st}$  degree), 510.120 (sexual abuse  $2^{nd}$  degree), 510.130 (sexual abuse  $3^{rd}$  degree), 510.140 (sexual misconduct), 530.020 (incest), 530.064(1)(a) (unlawful transaction with a minor – illegal sexual activity,  $1^{st}$  degree), and 531.310 (use of a minor in a sexual performance).

#### **AOC Summary Court Data- Case Outcomes**

(Data submitted by the Administrative Office of the Courts)

The Administrative Office of the Courts (AOC) is required by the SAFE Act to submit data to the SART AC "regarding the prosecution, dismissal, conviction, or acquittal of any person charged with committing, attempting to commit, or complicity to commit a sexual offense as defined by KRS 510.040 (rape 1st degree), 510.050 (rape 2nd degree), 510.060 (rape 3rd degree), 510.070 (sodomy 1st degree), 510.080 (sodomy 2nd degree), 510.090 (sodomy 3rd degree), 510.110 (sexual abuse 1st degree), 510.120, (sexual abuse 2nd degree) 510.130 (sexual abuse 3rd degree), 510.140 (sexual misconduct), 530.020 (incest), 530.064(1)(a) (unlawful transaction with a minor – illegal sexual activity, 1st degree), and 531.310 (use of a minor in a sexual performance). This is the same set of statutes as required to be collected by Kentucky State Police in the previous section.

## **Sexual Assault Nurse Examiners and SANE-Ready Hospitals**

## **Sexual Assault Nurse Examiners in Kentucky**

When victims and survivors choose to seek emergency, medical care following a sexual assault, they are utilizing one of the rights afforded to them by law. In Kentucky, all emergency departments are required to provide sexual assault forensic evidence exams to anyone of any age on a twenty-four-hour basis. Emergency physicians whose scope of practice includes pelvic exams are identified as healthcare professionals capable of completing medical-forensic examinations in a hospital setting. However, responding to cases of sexual violence and the collection of forensic evidence is a focused skill that is best developed through additional training, credentialing, and continuing education. A Sexual Assault Nurse Examiner (SANE) is a registered nurse or Advanced practice registered nurse who receives specialized training (didactic and clinical) that allows them to perform sexual assault medical-forensic examinations. The SANE collects and preserves evidence, as well as testifies in legal proceedings in accordance with Kentucky law (Kentucky Board of Nursing, 2022). According to the International Association of Forensic Nursing, "A comprehensive medical-forensic exam includes the evaluation and treatment of injuries, obtaining the medical-forensic history, conducting the physical assessment, providing support and crisis intervention, providing prophylaxis against sexually transmitted infections, assessing pregnancy risk and offering treatment options, and providing follow-up referrals for medical and emotional needs." SANE nurses work in collaboration with community-based rape crisis center advocates, the investigative team, prosecutors, the multidisciplinary healthcare team, and advocacy centers to ensure that sexual assault victims receive adequate trauma-informed care after a sexual assault. The "collaboration across disciplines enhances the quality of health care, improves the quality of forensic evidence, increases law enforcement's ability to collect information, file charges, and refer an investigation

to prosecution, and increases prosecution rates" (U.S Department of Justice, 2017, as cited in Kentucky Medical Protocol for Child Sexual Assault/Abuse Evaluation, 2021).

In Kentucky, a nurse aspiring to become SANE credentialed may choose one or both tracks as a SANE Adult/Adolescent (A/A) or a SANE Pediatric/Adolescent (P/A). Each track requires both a didactic and clinical component from an approved training program. The SANE - A/A is trained in the forensic examination of adults and adolescents, defined as "a child who has reached the onset of physiological normal puberty" or older who have been the victim of sexual assault (Kentucky Board of Nursing, 2022). The SANE - P/A is trained in the forensic examination of pediatrics and adolescents, defined as "a child who has not reached the onset of physiological normal puberty" or individuals up to age 18 who have been the victim of sexual assault (Kentucky Board of Nursing, 2022).

As of June 1, 2025, Kentucky has four hundred and sixty-eight (468) credentialed SANE-A/A, compared to four hundred and thirty-nine (439) in 2024. The state currently has sixty-one (61) credentialed SANE-P/A, compared to forty (40) in 2024 (KBN Connection, summer 2024, 2025 editions). An increase in the number of credentialed SANEs in the state does not necessarily equate to an increase in the number of exams completed by SANEs. A survey completed in 2022 by the Kentucky Hospital Association showed that less than half of SANEs completed a medicalforensic examination within the last year. Improving statewide access to SANEs means coverage needs to be available in the emergency departments when needed. No one understands these barriers and needs more than the SANE leaders across the state. Through their collaboration, our state has a strong training infrastructure to ensure nurses interested in obtaining their SANE credential can do so more often and closer to their home and work. We continue to see growth in the number of SANE training programs, which has also increased the regularity in which trainings are offered across the state. In the beginning of 2021, for example, there were two (2) SANE training programs approved by the Kentucky Board of Nursing. As of July 2025, there are six (6). Of the six (6) SANE training programs, five (5) provide training for the SANE-Adolescent/Adult credential, and two (2) provide training for the SANE-Pediatric/Adolescent credential. For information on SANE training, you may contact the SANE training programs below.

## **SANE-Ready Designation**

The SAFE Act included a provision to designate hospitals as "SANE-ready" if they were able to provide 24/7 coverage of sexual assault nurse examiners (SANEs) to treat "persons seeking treatment as victims of sexual offenses." We know that there are a

-

<sup>&</sup>lt;sup>5</sup> KRS 216B.401

limited number of SANEs available throughout Kentucky. KASAP and numerous members of the SART AC have made it a collaborative priority to strengthen the SANE initiative throughout Kentucky. We have also seen the support for SANE nursing grow across other statewide agencies who have aided in bringing awareness to the barriers around SANE nursing and working to increase the number of SANEs throughout Kentucky. For the past two years, we have seen an increase in additional statewide opportunities for nurses wanting to obtain SANE training, with the number of independent SANE training programs continuing to grow.

As of June 2025, twenty-five (25) hospitals were listed as having current SANE-ready designation status, compared to sixteen (16) in June 2024. SANE-ready means that the hospital has a SANE available 24/7. We continue to see the highest number of SANEready hospitals since the passage of the SAFE Act, and we appreciate the dedication of these hospitals to ensure victims and survivors are provided with the most comprehensive care after experiencing sexual violence.

The list below (continuing onto the next page) is obtained from, and maintained by, the Cabinet for Health and Family Services:

## Rape Crisis Centers and Emergency Medical Advocacy

The Kentucky Association of Sexual Assault Programs is the statewide Coalition of the Commonwealth's thirteen (13) regional rape crisis centers (RCC). One of the core services provided by the RCCs is emergency medical accompaniment for survivors seeking sexual assault services. RCC advocates respond to these requests 24-hours a day, 365 days a year. All survivors seeking emergency medical services are afforded the right to have an advocate from a RCC present. These advocates play a vital role in supporting survivors while they are navigating the healthcare system during an understandably traumatic moment in their lives.

Additionally, RCC advocates are community-based rather than systems-based. This is an important differentiation because community-based advocates support survivors regardless of whether they report the sexual assault to the criminal-legal system. RCC advocates may also provide referrals and wraparound resources, clothing, information regarding victims' rights, such as Crime Victim Compensation, and information for additional support services. Unfortunately, some survivors may not be aware they can have the support of an advocate when seeking emergency medical care and obtaining forensic-medical examinations. This lack of awareness is one of the reasons why it is important for emergency departments to prioritize and engage in collaborative relationships with the RCC in their region. In 2024, Kentucky's thirteen (13) RCCs statewide reported provision of advocacy support services during 925 forensic-medical examinations.

For many years, the SART AC has recognized a knowledge gap in what the law requires regarding response to sexual assault victim-survivors seeking emergency medical care in many of our emergency departments, especially in our smaller, rural hospitals. For example, Kentucky law requires all hospitals that offer emergency services to provide a free sexual assault forensic exam kit to all victims; contact a local RCC to provide

advocacy; contact law enforcement to collect reported kits when a victim consents; and preserve all kits not reported to law enforcement for one year in compliance with state law. However, RCC advocates often encounter issues in emergency departments that do not employ a SANE. To address these gaps, RCC and KASAP staff have provided, and can continue to provide, targeted training for hospital personnel. In addition, RCCs have numerous resources available for hospital administration to provide to current staff as a skills refresher, new staff during their onboarding process, and out-of-state physicians and travel nurses that might not be familiar with the specifics of Kentucky's laws regarding sexual assault response. Our goal has been to see every Kentucky hospital prioritize treating sexual assault and abuse as the public health crisis that it is. With the passage of House Bill 219 and House Concurrent Resolution 20 in the 2025 legislative session, we are closer than ever to achieving this goal.

## **Policy Update**

Earlier this year, Representative Rebecca Raymer sponsored House Bill 219 (HB 219) and House Concurrent Resolution 20 (HCR 20) to address training gaps for sexual assault response in Kentucky's emergency departments. The SART AC championed this legislation because House Bill 219 mandates sexual assault response training for all emergency department personnel. Additionally, HCR 20 directs the Legislative Research Commission to study access to SANEs and SANE services. This will be the first comprehensive statewide study of its kind. The Policy Subcommittee of the SART AC will develop the curriculum required for HB 219. In addition, the subcommittee will continue working closely with the Kentucky Hospital Association to ensure hospital personnel are well supported during the implementation of the curriculum.

## **Measurable Impacts from the SAFE Act**

## Addressing the SAFE Kit Backlog

The SART AC has collected and reported on eight (8) years of data, which has identified some measurable impacts resulting from the SAFE Act that are worth noting. Since the passage of the SAFE Act in 2016, the entirety of the kits included in the previously

-

<sup>&</sup>lt;sup>7</sup> KRS 216B.400 and 502 KAR 12:010

unsubmitted sexual assault kit initiative inventory has been tested, which was originally over three thousand (3,000), but the final total was roughly four thousand five hundred kits (4,500). Kentucky was the first state to approach eradicating the backlog on a statewide level, whereas it had only been done on a city-wide level in other states. Additionally, the KSP Forensic Laboratory has partnered with larger hospitals and SANE programs across the state to provide rapid DNA testing kits which can expedite the forensic testing process. Statewide agencies are continuing to make progress towards developing the infrastructure and capacity to prevent another backlog from recurring.

#### The Kentucky State Police Sexual Assault Forensic Evidence Kit Tracking Portal

The implementation and utilization of the Kentucky State Police Sexual Assault Forensic Evidence kit tracking portal is one example of this developing infrastructure that was not previously in place. The tracking portal requires medical personnel to input forensic-medical kit data into the system when the survivor receives care. The portal tracks data such as date, time, hospital, name of SANE or physician completing the exam, if a rape crisis center advocate was notified, the time the rape crisis center advocate arrived at the hospital, if a police report was filed, the name of the responding law enforcement agency and officer(s), and more.8 The collection of this information helps to create both accountability and transparency within the systems that are designed to serve survivors. As previously mentioned in the narrative provided by the Kentucky State Police Forensic Laboratory, we still have hospitals that are not inputting data from SAFE kits into the tracking portal as required. KSP Laboratory personnel can identify and contact those hospitals not accessing the portal login to help bring them into compliance with state law. Additionally, when KSP Laboratory personnel identify SAFE kits that have been entered into the portal, but the kit has not been submitted to the Laboratory for testing, they can reach out to the law enforcement agency directly to locate the kit. Prior to the implementation of the tracking portal, the KSP Laboratory did not have the ability to readily or easily locate SAFE kits because they could have been sent to and utilized by any hospital or law enforcement agency in the state. This is one of the reasons the backlog was created, as this data helps guide the Sexual Assault Response Team Advisory Council towards targeted collaborative improvements and gaps in services.

In addition to gathering pertinent data regarding sexual assault response in Kentucky, the tracking portal also provides survivors with the ability to track and

\_

<sup>8 &</sup>lt;u>https://ksponline.ky.gov/safekit</u>

check the status of their kit online at <u>ksponline.ky.gov/safekit</u> by inputting the eight (8) digit kit identifying number. The names of survivors do not appear on the tracking portal website, which helps ensure safety and confidentiality. The ability for victim-survivors to access the portal was part of an expansion in the law passed in 2019 and implemented in 2020. Not only did this expansion serve as another building block towards accountability and transparency, but it also exemplified empowerment advocacy in action by ensuring victim-survivors would have direct access to their kit status.

#### **Investigations and Prosecutions**

The SAFE Act guidelines created for law enforcement responding to sexual assault cases has led to additional trainings focusing on investigative effectiveness and survivor-centered interviewing skills. Law enforcement recognized the need to form cold case units since many of the backlog cases were inactive, and many survivors had never received follow up information or testing results from their kit. In some cases, these investigations have led to the identification and prosecution of serial offenders.

#### Sexual Assault Kit Initiative

Since 2017, Kentucky has seen several indictments connected to the backlog of untested kits. Specialized teams within law enforcement, such as the Sexual Assault Kit Initiative (SAKI), was created to reopen and investigate cold cases related to sexual assaults. The Kentucky Office of the Attorney General SAKI team currently provides training to detectives working sexual assault cold cases. In 2023, for example, nearly 200 law enforcement officers received training. Additionally, the Kentucky State Police has three detectives dedicated to handling and assisting with cases around the state.

Annual access to data from the Administrative Office of the Courts allows for stakeholders to review and compare county-specific criminal-legal data. Doing so has provided insight into how law enforcement agencies and Prosecutors interact with cases involving sexual violence. A review of the 2018-2023 AOC data provided for the SAFE Act report, for example, shows higher rates of convictions in counties where there is SANE coverage<sup>10</sup>

#### **SAKI Research**

<sup>&</sup>lt;sup>9</sup> https://ksponline.ky.gov/safekit

<sup>&</sup>lt;sup>10</sup> 2018-2023 AOC data from SAFE Act reports available at www.kasap.org

In addition to training and assistance, the Office of the Attorney General Sexual Assault Kit Initiative, in partnership with the University of Louisville and Indiana University Southwest, has produced valuable research in the field. In May 2025, David Lapsey, Katelyn McMahon, and Bradley Campbell published a study, *Police Officers' Familiarity with Resources Available for Sexual Assault Survivors*, with data collected from law enforcement officers that received sexual assault investigations training. Below is the project overview, and the study can be found in its entirety at the end of this report.

"In 2017, the Kentucky Office of the Attorney General's Office of Victims Advocacy received federal funding from the Bureau of Justice Assistance's Sexual Assault Kit Initiative for the Kentucky SAFE Kit Backlog Research Project to examine the problem of unsubmitted sexual assault forensic examination (SAFE) kits that were collected but never submitted to a crime lab for analysis. This project was extended in 2019 through the KY OAG's Sexual Assault Kit Initiative (KySAKI) Grant. The SAFE Kit Backlog Research Project seeks to provide a holistic research approach to examine this problem by providing data-driven insights into the response to these problems in Kentucky. The research team is collecting data to understand the factors that contributed to the number of unsubmitted SAFE kits, the characteristics associated with SAFE kits, kit submission rates throughout the Commonwealth, as well as testing results and case outcomes. Additionally, the project is evaluating the impact of efforts by the Sexual Assault Response Team Advisory Committee (SART-AC) and the DANY Grant Sexual Assault Forensic Evidence Taskforce, as well as the impact of Kentucky's SAFE Act – passed in 2016 through Senate Bill 63 – on responses to sexual assault in Kentucky.

The SAFE Kit Backlog Research Working Group is comprised of members from the following groups:

- Kentucky Office of the Attorney General's Office of Victims Advocacy
- Kentucky Office of the Attorney General's Department of Criminal Investigations
- Kentucky State Police Crime Laboratory
- Kentucky State Police
- Kentucky Department of Criminal Justice Training
- Kentucky Association of Sexual Assault Programs
- Kentucky Sexual Assault Response Team Advisory Committee

- State, Local, and County Law Enforcement Agencies
- University of Louisville Department of Criminal Justice
- University of Louisville Southern Police Institute

The research team has been working with these organizations collaboratively to collect data that will contribute to an understanding of the statewide response to sexual assaults. These organizations have implemented several reforms to address the volume of unsubmitted SAFE kits and to improve the response to sexual assaults in Kentucky. The research portion of this project employs an action research approach, which allows the research to inform responses. This is one of several reports that will evaluate Kentucky's response to sexual assault. The research reported here examines Kentucky officers' familiarity with victim resources."

#### **Victim Services**

For the first time in our state's movement to end sexual violence, the SAFE Act provided us with legislation that used language such as *victim-centered* and *trauma-informed*. Advocates have remained adamant about the importance of using a victim-centered approach to help ensure survivors do not experience re-traumatization, are offered emotional support services, and are kept informed about the status of their cases. Robust collaboration between law enforcement and RCCs can help support survivors going through the criminal-legal process because it guarantees survivors will always be referred to their local RCC. As previously mentioned, since sexual trauma can affect survivors across the lifespan, services provided by RCCs will be available at any point throughout a victim-survivor's healing journey. Kentucky has also seen an increase in systems-based victim advocates, such as the addition of a victim advocate position at all Kentucky State Police posts.

## **Ongoing Progress**

As with most legislative overhauls, it has taken time to recognize and analyze how the SAFE Act has impacted sexual violence in Kentucky. We know it has expanded the resources available to law enforcement and the forensic labs, which has led to the resolution of more cases. Kentucky remains committed to bringing resolve to survivors

by reopening cold cases, working towards goals of timely testing of evidence, and the prosecution of offenders. Additionally, improvements regarding the training and retainment of SANEs and investigative personnel will help ensure that when victim-survivors do choose to utilize the medical and criminal-legal systems, these systems will provide a trauma-informed response that strives to minimize re-traumatization.

## **In Closing**

Kentucky has made notable strides in addressing the backlog of forensic evidence while continuing ways to improve support services for victim-survivors. The collaborative approach of statewide and community agencies, combined with legal reforms and a focus on prevention programming represents a multi-faceted approach to combating sexual violence in Kentucky. Conversely, the primary focus and majority of the resources for sexual violence continue to go towards response efforts. The traditional systems of response are often centered around the criminal elements more so than what is in the best interest of the victim-survivor. Sexual assault is one of the most underreported crimes, and we know that not all victim-survivors choose to obtain a forensic-medical examination or choose to report to law enforcement. Yet, nearly half of Kentucky women, and over thirty (30) percent of Kentucky men report experiencing sexual violence or intimate partner violence at some point in their lives. 11 We can prevent sexual violence. However, this will not happen in Kentucky until we put the same funding and resources into primary prevention as we do into response and crisis intervention. When fewer folks are sexually assaulted, less forensic-medical examinations will be completed, which will lead to a decrease in both the number of SAFE kits to be processed and turnaround times for the KSP Laboratories.

#### PROJECT OVERVIEW<sup>12</sup>

In 2017, the Kentucky Office of the Attorney General's Office of Victims Advocacy received federal funding from the Bureau of Justice Assistance's Sexual Assault Kit Initiative for the Kentucky SAFE Kit Backlog Research Project to examine the problem of unsubmitted sexual assault forensic examination (SAFE) kits that were collected but never submitted to a crime lab for analysis. This project was extended in 2019 through the KY OAG's Sexual Assault Kit Initiative (KySAKI) Grant. The SAFE Kit Backlog Research Project seeks to provide a holistic research approach to examine this problem by providing data-driven insights into the response to these problems in Kentucky. The research team is collecting data to understand the factors that contributed to the number of unsubmitted SAFE kits, the characteristics associated with SAFE kits, kit submission rates throughout the Commonwealth, as well as testing results and case outcomes. Additionally, the project is evaluating the impact of efforts by the Sexual Assault Response Team Advisory Committee (SART-AC) and the DANY Grant Sexual Assault Forensic Evidence Taskforce, as well as the impact of Kentucky's SAFE Act – passed in 2016 through Senate Bill 63 – on responses to sexual assault in Kentucky.

The SAFE Kit Backlog Research Working Group is comprised of members from the following groups:

- Kentucky Office of the Attorney General's Office of Victims Advocacy
- Kentucky Office of the Attorney General's Department of Criminal Investigations
- Kentucky State Police Crime Laboratory
- Kentucky State Police
- Kentucky Department of Criminal Justice Training
- Kentucky Association of Sexual Assault Programs
- Kentucky Sexual Assault Response Team Advisory Committee
- State, Local, and County Law Enforcement Agencies
- University of Louisville Department of Criminal Justice
- University of Louisville Southern Police Institute

The research team has been working with these organizations collaboratively to collect data that will contribute to an understanding of the statewide response to sexual assaults. These organizations have implemented several reforms to address the volume of unsubmitted SAFE

<sup>&</sup>lt;sup>12</sup> This project was supported by Grant # 2019-AK-BX-0015 awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice.

kits and to improve the response to sexual assaults in Kentucky. The research portion of this project employs an action research approach, which allows the research to inform responses. This is one of several reports that will evaluate Kentucky's response to sexual assault. The research reported here examines Kentucky officers' familiarity with victim resources.

#### BACKGROUND

Since a statewide audit in 2015, over 4,500 untested sexual assault kits (SAKs) were identified in jurisdictions across the Commonwealth of Kentucky. In response, Kentucky implemented sweeping reforms to address the backlog and improve how the Commonwealth's criminal justice system responds to survivors of sexual assault. One major step was the passage of the Kentucky General Assembly's SAFE Act of 2016, which required every law enforcement agency in the Commonwealth to send at least one officer to specialized training on victimcentered sexual assault investigations. The Kentucky Department of Criminal Justice Training (KY DOCJT) developed the Sexual Assault Investigators course in response to this mandate. This course is an extensive 40-hour program covering a range of topics, including Kentucky sexual assault laws, victim-centered responses (e.g., the neurobiology of trauma, sexual assault response teams, and victim interviewing), the role of forensic evidence (e.g., SAKs), and common misconceptions about survivors of sexual assault. Because this training requirement was new, KY DOCJT added a research component to evaluate the course's effectiveness. The University of Louisville research team conducted a randomized experimental study to assess both short- and long-term impacts on key outcomes, and found the training was effective in reducing rape myth acceptance, improving knowledge of laws, and increasing officer knowledge of trauma informed practices (Link to Full Report).

In addition to evaluating KY DOCJT's new training program, KySAKI stakeholders were interested in learning about officers' familiarity with local victim resources serving their jurisdiction. Leveraging data collected from the broader training evaluation, the UofL research team analyzed surveys from 378 Kentucky officers to examine officer familiarity with three key victim resources: (1) victim services, (2) victim advocates, and (3) sexual assault nurse examiners (SANEs). Officers were asked to rate their familiarity with each resource on a scale from Very Unfamiliar (1) to Very Familiar (5). This analysis also includes an in-depth geographical analysis that demonstrates the average level of officer familiarity for each Kentucky county.

Results revealed that male officers reported less familiarity than female officers and those working in nonurban areas reported lower levels of familiarity across all resource types. Officers who reported prior sexual assault training and those who responded to a higher number of sexual assault reports demonstrated significantly higher familiarity. The geographic analysis also

showed variation in knowledge across Kentucky counties. This report presents the analysis of officers' survey responses and discusses their implications for improving officer training and familiarity with key victim resources in Kentucky.

#### Literature Review

When survivors report the sexual assault, it is crucial that there is an appropriate response (Ahrens, 2010). The U.S. Department of Justice (2022) recommends that officers address the medical, emotional, legal, and safety needs of victims at they report victimization, even when they choose not to participate in an investigation. One way law enforcement officers can support survivors is by connecting them to resources including victim services, advocates, and (SANEs). Access to resources offers many benefits such as increased information, reduced post-system-contact distress, and an increased likelihood of continued engagement in the criminal justice process, as victims often report feeling more respected and supported when referred to these services (Brown et al., 2010; R. Campbell, 2006; Fehler-Cabral et al., 2011; Hester & Lilley, 2018; Patterson, 2011; Patterson & R. Campbell, 2010; Stark, 2000; Wasco et al., 2004; Wegrzyn et al., 2022). However, many survivors tend to not use the services available to them (Sims et al., 2005). It is therefore important that officers are familiar with the resources in their jurisdiction to share this information with survivors and reinforce that support is available.

Research suggests that officers are not always aware of the services available to survivors in their jurisdiction. For instance, although most officers reported feeling knowledgeable about their department's victim services programs, only 10% said they would request an advocate for all types of crimes presented (Hatten & Moore, 2010). Officers have reported being only "slightly familiar" with services for sexual and domestic violence victimization, though greater familiarity was associated with an increased likelihood of making a service referral (Goodson et al., 2020). Indeed, recent data indicate that referrals to victim services occurred in just 39.4% of cases and advocates were involved in the formal response in only 22.5% of cases (Goodson et al., 2024). However, the study also found trauma informed training was associated with greater advocate involvement and increased referrals to survivor services (Goodson et al., 2024).

Officer familiarity with survivor resources can vary significantly across jurisdictions. Larger agencies are more likely to have dedicated services for survivors, while rural agencies often operate with fewer resources and less specialized personnel (Edwards, 2015; Fritz et al., 2024; Tibaduiza & Barrick, 2024). Survivors in rural areas may also face greater barriers to accessing services (Lynch & Logan, 2020; Peek-Asa et al., 2011). Officers in these areas sometimes have higher levels of misperceptions of victim reporting behaviors and increased biases – such as knowing the victim or offender – that could influence a victim reporting and

police response to victimization (Fritz, 2024; Lapsey Jr. et al., 2024; Terry, 2020; Youngson et al., 2021). In addition, service providers have reported that rural officers often serve as "generalists" and have less specialized training in trauma informed response and intimate partner violence, while being tasked with more and different roles and responsibilities compared to urban officers (Fritz et al., 2024).

To assess police officer familiarity with resources available for sexual assault survivors across jurisdictions in Kentucky, this analysis used a combination of survey data from 378 officers and geographic mapping to examine officer familiarity with (1) victim services, (2) victim advocates, and (3) sexual assault nurse examiners. In addition to identifying officer- and agency-level predictors of familiarity of victim resources, this analysis provides a baseline measure of officer familiarity with victim resources and identifies counties that may benefit most from increased resources and training efforts. To do accomplish this, we examined the following four research questions:

RQ1: Do officer demographic characteristics correlate with familiarity of resources for sexual assault survivors?

RQ2: Does police agency jurisdiction type affect familiarity with resources for sexual assault survivors?

*RQ3*: Does officer training and experience affect familiarity with resources for sexual assault survivors?

*RQ4: How does knowledge of resources vary across jurisdictions?* 

#### **Study Participants and Design**

Our analysis uses pre-training survey data from the experimental evaluation of the KY DOCJT Sexual Assault Investigations course. The sample includes 378 police officers from jurisdictions who were selected to attend one of 11 training sessions offered between May 2017 and April 2018. At the start of the training, these officers completed surveys measuring their familiarity with key resources available to survivors of sexual assault. **Table 1** presents descriptive characteristics for the sample of police officers. Study participants averaged 14.36 years of policing experience, with 33.86% having prior sexual assault training. Most were White (94.70%), male (92.59%), completed at least a two-year degree (63.18%), and had responded to a sexual assault report within the past year (65.87%).

#### **Outcome Measures**

Officers were asked to rate their familiarity with the following three types of survivor resources available in their jurisdiction: (1) victim services, (2) victim advocates, and (3) sexual

assault nurse examiners (SANEs). Officer familiarity with each resource was measured using a 5-point Likert-type scale ranging from Very Unfamiliar (1) to Very Familiar (5).

**Table 1**Descriptive Statistics for Correlates of Familiarity with Victim Resources (N=378)

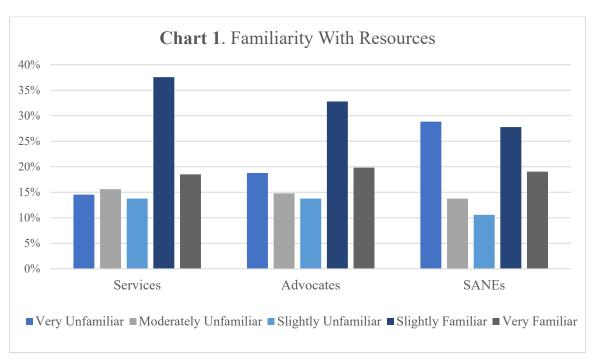

Descriptive statistics for Corretales of Familia	Count (%)	Std. Dev.		Max.
Variables	(count)			
Dependent variables				
Familiarity with victim services $(\bar{x})$	3.299	1.330	1	5
Familiarity with victim advocates $(\bar{x})$	3.201	1.409	1	5

11 to 20	23 (6.08)			
21 or more	16 (4.23)			

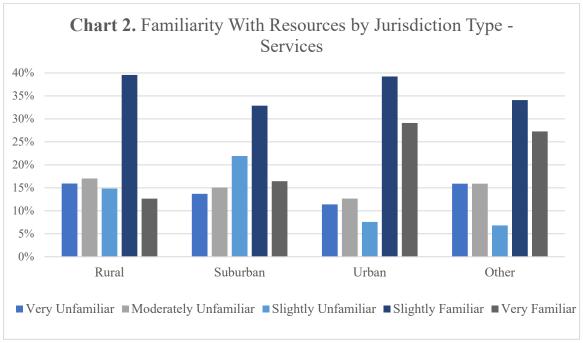

Note:  $(\overline{x})$  = average. Count = number of officers who chose each measure. % = the percentage for each measure. Std. Dev. = standard deviation, Min. = minimum, Max. = maximum.

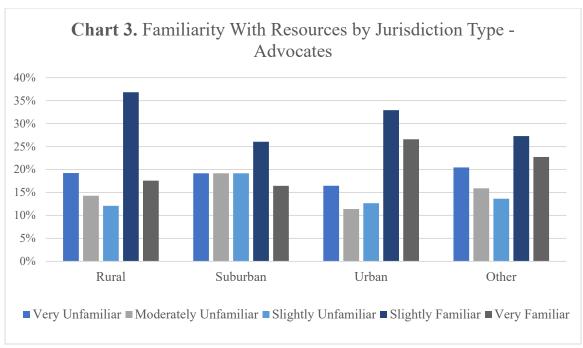

#### Results

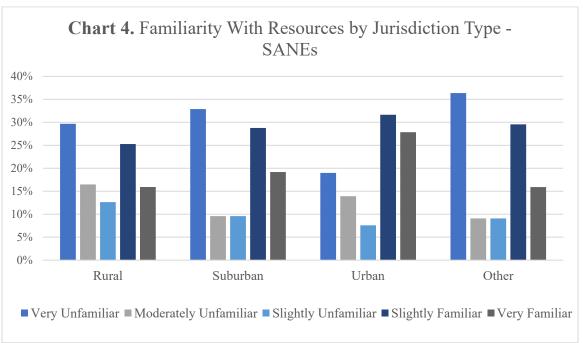

The following results summarize officers self-reported familiarity with the key victim resources. In addition to information shown in **Table 1**, 56% of officers felt they were familiar with victim services, 53% reported being familiar with advocates, and 47% responded that they were familiar with SANEs. **Charts 1-4** displays officers' self-reported familiarity with each victim resource overall and by jurisdiction type. Across all three resources, officers reported

varying levels of familiarity. Officers in urban jurisdictions consistently reported greater familiarity for all resources compared to those in rural, suburban, and 'other' (e.g., school) jurisdictions. Overall, familiarity appears highest for victim services in general across jurisdiction type, and while nonurban areas have reported lower familiarity in comparison to urban officers..

To better understand the factors associated with higher or lower familiarity, multivariate ordinal logistic regression was used to examine how officer and agency characteristics predicted familiarity with victim resource outcomes. Presented in **Table 2**, the models revealed that male officers reported significantly lower familiarity with victim services and victim advocates. Officers in rural or suburban jurisdictions reported significantly lower familiarity with victim services and SANEs. Prior sexual assault was significantly associated with greater familiarity

with victim services and SANEs, while responding to more sexual assault cases in the past year significantly predicted higher familiarity across all three outcomes. Race, education, and years of experience, were not significantly related to familiarity with victim resources. These findings suggests that familiarity with victim resources is influenced most by sexual assault training, investigating sexual assault reports, and where officers worked. Officers in urban areas with prior training or more experience with sexual assault cases were more likely to be aware of victim services, which indicates a need for sexual assault training in nonurban jurisdictions.

Table 2.

Ordinal Logistic Regression for Predictors of Familiarity with Victim Resources

#### **Geographic Analysis**

To visualize county-level variation in officer familiarity with victim resources, choropleth maps displaying average familiarity scores for each outcome were created. Each map is shaded according to officers' average familiarity ratings. In addition, county data are grouped by rape crisis center regions, which was defined by the Kentucky Association of Sexual Assault Programs. Overall, these maps show substantial geographic differences in resource familiarity

across counties. Laurel and Pulaski counties consistently scored among the highest across all three resource types. Graves, Laurel, and Fayette counties also reported greater familiarity in multiple areas, while Christian, Hopkins, Warren, and Hardin counties reported greater familiarity with only one type of victim resource.

### **Policy Implications**

Overall, officers across Kentucky reported the highest familiarity with victim services, followed by victim advocates and SANEs. Familiarity was significantly higher among officers in urban areas and those with prior sexual assault training and experience responding to sexual assault reports. Male officers and those in rural or suburban jurisdictions reported lower familiarity. Maps and county-level data revealed geographic differences. On average, most counties reported being only slightly familiar or less than slightly familiar across the three victim service outcomes. Based on these findings, there are several potential policy implications:

- 1. Expanding access to training opportunities in nonurban areas to reduce differences in officer familiarity with victim resources.
- 2. Mandated training to increase officer familiarity with victim resources across Kentucky.

- 3. Cross-training training efforts earlier in officers' careers may strengthen long-term familiarity with available victim resources.
- 4. Supporting multidisciplinary collaboration (e.g., Sexual Assault Response Teams) to foster relationships.
- 5. Building partnerships with local service provides to improve familiarity with victim resources.

### SEXUAL ASSAULT CHARGES DISPOSED CALENDAR YEAR 2024 STATEWIDE

May 23, 2025

Ву

Lyn Guarnieri (Research and Statistics Team Lead)
Christopher Garrison (Data Analysis Specialist)

### **Statistics Request Overall Description**

Pursuant to KRS 27A.305, the Administrative Office of the Courts is providing the Sexual Assault Response Team Advisory Committee a count of sexual assault charges disposed in cases calendar year (CY) 2024 statewide. The UOR codes for the requested charges are provided on the attached supplemental list.

CourtNet, which provides a summary of cases statewide, was queried for the specified sexual assault charges disposed January 1, 2024 through December 31, 2024.

### **Statistical Tables (21 RSX4000 & 21 RS4002)**

Report 21\_RSX4000 provides a list of the UOR codes queried for this report.

**Report 21\_RS4002** presents the number of specified sexual assault charges disposed during CY 2024 statewide. Tables are grouped by the court jurisdiction and are sorted by county, UOR code and description cross tabulated by charge disposition group.

Pages 1-112: Charges disposed in Circuit Court by county, UOR code, and UOR description.

Pages 113-169: Charges disposed in District Court by county, UOR code, and UOR description.

Pages 170-177: Statewide Summary of charges disposed in Circuit Court by UOR code and description.

Pages 178-184: Statewide Summary of charges disposed in District Court by UOR code and description.

Page 185: Charges disposed statewide.

### **Statistical Analysis Considerations:**

- > These statistics represent a snapshot in time as of the date the data was queried: 5/23/2025.
- A case may consist of one or multiple charges. The report's count of cases represents a distinct count of case numbers, regardless of the number of charges associated with the case.
- > Counts of cases do not necessarily represent counts of unique individuals.

### SEXUAL ASSAULT CHARGES DISPOSED CALENDAR YEAR 2024 STATEWIDE

### Statistical Tables (21\_RSX4000 & 21\_RS4002)

- Most indicted charges are recorded in CourtNet as final charge dispositions in District Court and then a new case will be started in Circuit Court. Other charges may be indicted directly to Circuit Court without being preceded by a District Felony case.
- > Charges consist of all original and amended charges within a case.
- > Charges include ASCF Codes: 1 Attempt, 2 Solicitation, 3 Conspiracy, 4 Facilitation, 5 Complicity, 6 Enhancement.

Data Variable	s Requested	
Database	Data Variable	Description
CourtNet	Court Jurisdiction	The jurisdiction of the case for which each charge was disposed:
	CY	The calendar year in which the charge was disposed.
	County	The county in which a charge was disposed.
	UOR Code and Description	A code and description which identifies the specific offense charge brought against the defendant.
	Disposition Type	The manner which each charge was disposed. Disposition types include:
		Acquitted  • ACQ – Acquitted  • NG – Not Guilty  Amended  • ACC – Amended Down by Circuit Court  • AD – Amended Down  • AGJ – Amended Down by Grand Jury  • AMEND – Amended  • AU – Amended Up  • AUGJ – Amended Up by Grand Jury  Convicted  • G – Guilty  • GM – Guilty-Multiple counts  • GSS – Guilty-Sealed Sentence
		<ul> <li>PRPD – Prepaid</li> <li>Dismissed</li> <li>CD – Dismissal by Motion of Prosecutor</li> <li>DD – Dismissal Diverted</li> <li>DDP – Dismissal Deferred Prosecution</li> <li>DEC – Deceased</li> <li>DGI – Dismissed After Presented to Grand Jury</li> </ul>

### SEXUAL ASSAULT CHARGES DISPOSED CALENDAR YEAR 2024 STATEWIDE

	DWP – Dismissed with Prejudice
	<ul> <li>HNG – Hung Jury</li> </ul>
	<ul> <li>INC – Incompetent to Stand Trial</li> </ul>
	<ul> <li>MST – Mistrial</li> </ul>
	<ul> <li>NCPF – No Probable Cause Found</li> </ul>
	<ul> <li>NPHH – No Preliminary Hearing Held</li> </ul>
	NGI – No Action Taken by the Grand Jury
	NTB – No True Bill Returned by Grand Jury
	<ul> <li>PAR – Pardon-Prior to Adjudication Only</li> </ul>
	PRDIS – Pre-Payable Citation Dismissed
	SAV – Set Aside Voided
	VAC – Vacated Judgment
	VEFC – Vacated Expunged Felony Conviction
	VSC -Voided Sealed Conviction
	WD - Withdrawn
	Diverted
	DIV – Diversion
	DP – Deferred Prosecution
	PTD – Pretrial Diversion
	FTA/FTV/AP
	AP – Administrative Procedure
	FTA – Failure to Appear
	FTV - Fugitive
	Indictment
	IND – Indictment by Grand Jury/Information
	Other
	OTH - Other
Charges	A count of charges disposed.
Cases	The total number of distinct cases disposed.

### Disclaimer Associated with KCOJ/AOC Database(s) and Element(s)

### **RESEARCH AND STATISTICS DISCLAIMER**

Information received from KYCourts/CourtNet is subject to change(s), reprogramming, modification(s) of format and availability at the direction of the Administrative Office of the Courts (AOC) and may not at any particular moment reflect the true status of court cases due to ordinary limitation(s), delay(s) or error(s) in the system's operation. The KYCourts/CourtNet database is not a real-time system. All datasets are a snapshot of case data at the time a query is run. Case counts are not counts of individuals as some persons may have multiple cases.

The AOC disclaims any warranties as to the validity of the information obtained from KYCourts/CourtNet. The recipient is solely responsible for verifying information received from KYCourtS/CourtNet through the cross-referencing of official court records. The AOC shall not be liable

### Disclaimer Associated with KCOJ/AOC Database(s) and Element(s)

to the recipient, or to any third party using the system or information obtained therefrom, for any damages whatsoever arising out of the use of KYCourts/CourtNet.

#### RESEARCH AND STATISTICS UOR CODE DISCLAIMER

The Kentucky State Police (KSP) assigns the Kentucky Uniform Crime Reporting Codes (UOR Codes) to criminal offenses in the Commonwealth of Kentucky. The KSP official list of UOR Codes by KRS number and descriptor can be obtained at the KSP's website at www.kentuckystatepolice.org.

The AOC assigns and maintains codes that are used within the Court of Justice Case Management System for statistical and reporting purposes. These codes are used to identify local and city ordinances, as well as codes for general administrative purposes. The AOC official list of UOR Codes with KRS number and descriptor can be obtained at the Court of Justice Website at <a href="Analytics - Kentucky Court of Justice">Analytics - Kentucky Court of Justice</a>. The AOC UOR Code Listing is for informational purposes only and the information is subject to change, reprogramming, modifications of format, and availability at the direction of the Administrative Office of the Courts (AOC).

A query for data based on specified charges will include each UOR code specified and possible supplemental codes. Supplemental codes (or "ASCF" codes) to any UOR code include: 1) attempt, 2) solicitation, 3) conspiracy, 4) facilitation, 5) complicity, and 6) enhancement. In total, UOR codes contain seven digits. The first six digits are specific to that charge. The seventh digit indicates if there is a supplemental code. A "0" as the seventh digit means that is the primary UOR code and it does not have a supplemental code. If there are supplemental codes, the "0" will change to a 1, 2, 3, 4, 5, or 6 (the numbering corresponds to the list above). An enhancement does not exist on all UOR codes. When a supplemental code does not appear within a dataset, charge(s) did not occur during this period. The presence of "\*obs" within the description of a UOR code indicates an obsolete UOR code. However, the code is still present within the KYCourts/CourtNet database and may still be utilized. Not every UOR code included in the query will have charges associated with it in each calendar year examined. Some cases may contain multiple charges; therefore, charge counts may exceed case counts. The number of cases cannot be inferred as the number of individuals as multiple cases may have the same defendant.

The AOC disclaims and makes no warranty, express or implied, nor assumes any legal liability or responsibility, for the validity, accuracy, correctness, or completeness of any information that is available and/or obtained through this listing. The recipient is solely responsible for verifying the accuracy of the information received from the official owner of the UOR Codes, the KSP. Furthermore, the AOC shall not be liable to the recipient, the recipient's heirs and assigns, next of kin or to any third party, for any and all claims, demands, losses or damages arising from the usage of this list and/or information contained therein.
